

Does GDP have an effect on Voter turnout?

David Perkins

Percent change in GDP and Voter Turnout over time

Average Percent Change in GDP Over Time (Counties)

Average Percent Change in Voter Turnout Over Time (Counties)

% change in GDP vs. % change in Voter Turnout

Change in GDP does not have an effect on change in voter turnout, P-Value = 0.603

Better Predictors

Unemployment Rate:
P-value = <0.001

Yearly Election cycles

R² statistic = 0.026

Every dot represents one county in one presidential election year
